I feel the primary and most beneficial role of MWR should be to provide good restaurants, Army Lodging, sporting facilities and gyms, golf courses, sporting equipment loan/rental, and cheap tickets for sports/entertainment shows for soldiers.

I believe the Youth Center should be more accomodating and friendly of organizations such as the Girl Scouts, Cub Scouts and Boy Scouts. The staff there seems to see these organizations that service a large number of our young people as an intrusion. If the Youth Center cannot accomodate them, then there needs to be some facilities on post dedicated to their use. Such organized functions are more important and useful than "hanging out" activities of a less structured nature.

We should have a gym facility that soldiers have access to on a 24 hour a day basis as exists at some other installations such as Fort Leavenworth. There is little excuse for allowing 24/7 access to the library using access cards while prohibiting access to at least a cardio vascular room on post. I can understand the desire to avoid the unsupervised use of free weights, but that does not apply to the machines. The most likely place for a heart attack is probably the route around the golf course yet we do not lock that up or require constant supervision of the route. Hang a camera in there if you are that concerned, but open it up for after hours access.

Our gymnasium is very clean and well run-- it is just too small and crowded. That and the limited hours account for why I pay \$45 a month to belong to a Gold's Gym off post. They have a greater variety of machines and service there and are open much longer hours. They open earlier and close later. In light of the emphasis on fitness in our profession our on post facilities should put commercial fitness facilities to shame. Unfortunately they do not.

An on post car wash would be a good addition.

MWR needs to do a better job advertising its events on Carlisle Barracks by setting up bulletin boards in the Chapel, Commissary, PX. There are presently no central palces in these areas where people can go to look at the current fliers that are out there in the community.

Move the LVCC operation out of the fenceline to the area of teh gold course to eliminate peopel having to go through the security checkpoints to attend events - if you do this your business will increase.

Enter into a partnership with a civilian restuarant chain at the golf course area instead of trying to keep the LVCC afloat by itself using AF/NAF monies.

Look for sponsors for the various MWR sites like the bowling alley that would pay MWR for allowing its name to be posted on the building. For example: the "Coca Cola Bowling Center".

Many of the activities are low impact. I'm not sure of the return on investment and MWR makes its biggest contribution OCONUS. I'd consider scaling back the CONUS low density facilities and offer better/cheaper packages over the internet to pass the savings over to soldiers.

High use recreation areas will never answer the demand, but rather than increase capacity at those facilities, I recommend adding new locations. New locations should not compete with the amenities available through commercial sites, but should focus on affordable billeting. The purpose is to allow service members to visit points of interest at rates that match a service members budget.

The Child Development Center is staffed with absolutely the most qualified and professional individuals that I have had the honor of serving with over the past 17 years. My children are my life and I have the utmost confidence that the staff here at Carlisle Barracks are doing all they can to ensure my children are safe and develop as individuals. (I type this, even though my daughter had to have stiches in her chin yesterday from a miscue--so I hope as people read this, they understand my true appreciation for that staff) They are friendly and my kids love going and come home everyday having learned something positive. What can I say. Additionally, Don Watkins, in the Youth Sports Program is exceptional! I am involved with both soccer and Tee ball and this guy is completely committed to ensuring that kids learn and have fun, maybe not in that order. As a parent here at Carlisle Barracks I would like to thank everyone from the Installation Commander on down for the group effort in helping to take care of my family.

Carlisle Barracks:
I would use the MWR Club facilities more if they offered a good program at reasonable prices .. The mangament at the LVCC are poor business people -- they no longer see the AWC students as true customers -- they do not provide an inviting program, with good food presentation at reasonable prices. Many of my peers are dissatisfied with the MWR club facilites (LVCC, Golf food snack bar) .. and only attend when the AWC is having a mandatory event -- I have talked many times with the management, offering ideas and feedback .. all I receive in response is denial of their service, excuses that they have to charge higher prices to cover the high labor and that it is the students fault for not supporting the club. No effort to really promote, market, and develop a blue ribbon program .. many of the empolyees are set in their ways and now the entire MWR program is very stagnet and stale .. I highly recommend that CG CFSC, and the bus manager do a complete audit of the business program to correct a failing management structure ... same goes for the gym facilities .. the managers and employees do not really care about having a great facility .. no plan that I can see to keep the facility in A+ condition -- it does have an improved facility and I enjoy working out .. but again -- I worry that it will deteriorate due to employee neglect and indifference ... again no focus on the customer ... no focus on turning a profit and all that goes into it under the ACOE programs and attitude ... I could go on ... I would use the facilities and program more if it were a good to excellent program that offered quality, services at reasonable prices ...

the golf facilities are excellent -- I would not concider to use off post facilites ... great value -- I only wish I could play more!!! great value ..

Lunches and sometimes breakfast in Root Hall is good & reasonably priced.

Use of LVCC is not convinient. Great people, excellent service & food for catering-- but, difficult to use and excessive prices to consistently use for less formal conferences, gatherings etc.

Office gatherings, small conferences at reasonable cost (lunch, snacks, coffee, etc.) are cheaper and easier (more flexibility & options)in the community.

On the plus side, LVCC has a great staff and are cooperative within the confines of how buisness is done.

My family and I do not live on a "post." We are stationed in a remote area. Some others, in the same situation, get free membership to local YMCA's. We are not offered that and having no fitness centers that we can afford to go to on a military pay. I would be extremely pleased to see all recruiters be offered a YMCA pass if their is not one available due to being off post. I doubt we will see this happen because people have asked for it for quite a time now. But, it's worth another shot.

Generally speaking, I think the MWR tries to do a good job at Carlisle Barracks. The program managers seem to really care about their organizations/activities and seem to be always working on improving their services and provide good customer service. Only problem I have observed is a lack of support from the DCA to his managers. The almighty dollar does count but so does taking care of your employees. This is not displayed when folks go to him for assistance and receive a response of "if you don't like it here, go find another job." That's not developing a good working relationship. The managers are working hard and your can see it through their customer service.

I am sad to have watched the decline of the ACS section over the past several years. There are some extremely competent and hard working people in the section and the section has the potential to become a real asset to the community again.

The only barrier to this happening is the head of the ACS division. Poor organizational skills, a lack of people skills, and a general uncaring attitude beneath the community service veneer are inexorably wrecking what could be a great section.

I am retired, and my family, including a mentally challenged daughter returned to the Carlisle area because of the installation and the services it provides. I am sure the quality of the programs etc., is basically due to the Army War College be located here, but that is more than fine with us. I did spend 8 years of my 22 year Army career stationed at Carlisle Barracks, and there is no finer facility, as far as we are concerned. Please keep up the good work for all who may use the facilities. Thank you

Carlisle Barracks is a fairly small post and due to the fact that I am retired and now work in Harrisburg, I don't get to the post or have access to the facilities like I use to. I believe the post provides a lot of good services to the community both active duty and retired. MWR has always been beneficial and we have used a lot of the services offered during our assignments in the 23+ years of active duty. We are very concerned that Carlisle Barracks may become a victim of BRAC 2005 which will seriously impact our use of the Dunham Health Clinic, PX, Commissary, Class Six Store and other important services provided to retirees in this catchment area. We have used many of the recreational facilities during our assignments. Hale Koa, Bellows, KMC in Hawaii are notable.

I am retired and am 70 years old. I have several physical disabilities/restrictions that have seriously affected the responses I made in this survey, e.g., total right knee replacement, scoliosis of the lower spine, etc.

I am retired Army (E-8) and primarily drive the 45 miles from my home to Carlisle Barracks to procure prescribed medications at the Dunham Clinic, and also use the Commissary, PX, and Class VI occasionally.

Carlisle Barracks appears to have all of the facilities necessary to keep up the morale of the troops and their families and provide them with adequate recreational, leisurely and professional programs. It is a very unique Post and should ALWAYS remain on ACTIVE STATUS.

I've answered the questions about MWR facilities at Carlisle Barracks; however, we use only the commissary/PX/medical facilities because of distance (20-minutes +/- by car). Mechaniscburg Naval Facility (5 min) is closer and therefore our answers really apply to MWR facilities (gym/athletic field/auto-hobby) on that installation.

Things have apparently changed so much since I was on active duty that I'd be reluctant to comment. When I was active, the most important things were housing when arriving at a new post until permanent quarters were available. Once established I, and my family, were active participants in Bowling Leagues, and craft/woodshop activities. We also planted and tended a garden for three years at my last assignment. Happy Hour every Friday night was a routine, and monthly parties at the Officer's Club were events not to be missed. The reason that I use on post facilities so rarely now, is that my lifestyle has changed and I have little need for anything much more than the commissary and the health clinic.

My wife and I live in Harrisburg, PA. We visit the Carlisle Barricks approximately every 6 weeks to use the commissary. While there we usually visit the PX. We have not used any of the MWR services but may in the future if we would be notified in advance of what was going to happen.

ACS too distant from my home (60 miles)

Overall Comment

I live 60 miles from post and seldom use the post facilities. Any comments I have made as to importance of facilities was if I were living on post. I believe that Carlisle Barracks offers many fine services managed by some outstanding people. Where there is a shortfall if any is facilities (offices, desks, chairs, etc), the "appearance" of what you have to offer.

I currently live approximately 30 minutes from Carlisle Barracks and only occasionally get to the gym to play racquetball. I work in New Jersey during the week and play at a fitness in Mt Laurel. I do live a few minutes from Letterkenny Army Depot, which at one time had a gym, but no longer since Brac 95.

Since I live more than an hour from Ft Detrick and Carlisle I seldom use their facilities since local businesses meet many of our needs, often cheaper, than what I can find on the bases. If I lived closer to the Washington DC area I would make more use of MWR activities. I would also like to state that the facilities I have used at the Dragon Hill and Hale Kola would 5 stars in my book!!

Bring back the Grandstand Fitness Center. Thorpe Gym is both inconvenient and inadequate to the number of folks who want to use a fitness facility on Carlisle Barracks.

ITR hours need to be regular rather than changing all the time.

Golf Course and Bowling Center food service operations would rate a "good" or even "very good" for what they serve; the "MWR food service" score was pulled way down by the LVCC inconsistency -- sometimes very good but all too often not so.

I thought that the Child Development Center was for members of the armed forces and armed forces employees. But I see that it is apparently open to everyone, because there is someone who drops off her child every morning between 0625 and 0640 every day monday thru friday. She and her child have not ties to the military because neither her or her child have a military issued ID card. She drives a small blue car.

This survey is most confusing, I tried to follow the on line survey with the one that I had received in the mail and they do not match. I am retired and have no idea which questions apply. I beleave that MWR is doing a good thing for the Active Duty Members and to some extent the Retiree. I am located to far from any facility to truely answer your survey.
Thank You

Carlisle Barracks MWR program has gone down in the past two years. They not only downsized the office but the trips and tours that is no longer offered. I think that the morale of the soldiers and retirees are affected. They do a poor job of advertising events and tickets sales. They really need to do more and sponsor more events.

You need a new Bowling Lanes Manager. The Current manager is vulgar and arrogant, and he know little or nothing about running and maintaining bowling lanes. His personnel management techniques are lacking in that he regularly demeans his employees in front of his customers. He shows little or no interest in satisfying his customers and frankly, I seriously question his integrity based on a number of incidents that I am personally aware of. He is an embarrasment to the good work that others are doing in the MWR programs.

ACS provided super service to my family and me when on active duty -- espcailly when we lived on [post at various location. As a practical matter, with the kids now grown (some in the service) and living off-off-post, the need as dropped. But when we needed it, it was a key quality of life measure ion determining a 'good' assignment.

Do some research on where your soldiers and families are located prior to sending out survey's. If you want accurate information, and not just a mass sending of survey's (a waste of money!) this would help to collate and obtain positive feedback, instead of wasting my time and yours.

I have not lived with my husband because our children are teenagers. I am not the traditional spouse and I find that I donot know what is happening or hear anything about programs available. I heard nothing while he was in Korea and I have heard nothing since he has been deployed. Am I supposed to hear anything?

I have found that civilian doctor's refuse to fill out the necessary paperwork for the Exceptional Family Member Program and cannot access the needed adaptive equipment. We will have to pay out of pocket.

I would enjoy living closer to my husband when my last child graduates high school but I was informed that I cannot be helped because it is after a one year mark. I have researched employment possibilities for a civilian employment off base but have found nothing that meets my educational and current professional background. How can I find out about civilian jobs on base that would come close to my current profession?

My husband's current installation is Fort Campbell and I live in northern central PA. This makes it difficult for us to begin with and now he is deployed. When I do move, I would like to see any arts & crafts, outdoor recreation activities and anything else available. If not I would look for something off base that would meet my needs or start something.

This survey is for Carlisle Barracks. Most of the survey does not apply to our family since we are stationed approximately 2 hours from Calisle and would rarely drive that distance for services. If we were stationed closer, the services offered would be more valuable and we would most likely use them more often.

My family and I live on the DDSP (Defense Distribution Depot Susquehanna Pennsylvania). Most of the programs that were in the survey are not even offered on the post. I only use Youth services every now and again, though I feel it is a very important program. I would like to see an ITR office come to post. I would like to see tours/trips come to post. I would like to see Family Support/Readiness Groups and Welcoming Orientations come to post. I do, however, recognize that this is a very small and mixed post so maybe these programs would not be supported here. On previous posts, I have enjoyed many things that the MWR program has provided.

I was saddened by the decline in wood shops on military posts. Military quarters do not afford space and proximity to neighbors can make it difficult to use power tools in the housing areas. Wood shops are not available in local communities. For many military families this eliminated any opportunity to pursue this activity.

I consider single soldier issues and child/youth issues to be the most important aspects of MWR. While golf courses may be self-supporting they serve a small post population and cover a greater area than almost any other activity. This gives the impression that golf is very important to the decision makers and deserving of attention and finances.

My husband is a recruiter. They do not get any time off. They work at least 80+ hours per week and are forced to work on their leave. There is no moral, no welfare, and no time for recreation. Most of this survey does not apply becasue there is nothing offered near us. It seems as though the Army has generally forgotten, or does not care, about us.

This survey was for the Carlisle Barracks. I live closer to the the DDC in New Cumberland,PA. The answers I gave for this survey was for the DDC, not Carlisle. Carlisle is to far for me to take advantage of their services. The DDC however is very lacking in what they offer. If the DDC offered more MWR on their instillation, I think it would be great. Just to have a commissary would be nice. I do use the CDC on the DDC. It is a very nice facility and my child loves it. We also use the bowling alley, pool and the gym. The gym is very poor however. Carlisle is a very nice in what they offer, but it is way to far for us. Please do something with the DDC. Thanks

One great benefit of MWR is they are all over the world. This year we used facilities, rentals, and discount tickets on our ski trip to Colorado from the MWR at Ft. Carson. I feel the overseas facilities are of great benefit especially the Dragon Hill in Yongsan, White Beach in Okinawa, the Hale Koa and also in Germany.

The skate park at Carlisle Barracks is wonderful for the kids. Also there is a wonderful "dog park" where our dogs can run off leash and get some exercise without endangering themselves or annoying those who don't love dogs like we do.

The gym is good here, but some of the exercise equipment is not as good as it should be, especially on a post where most of these guys have been running for years and everyone has some sort of knee problem. Treadmills are not up to speed. But the staff is always friendly and helpful.

I think an indoor swimming pool would get quite a bit of use here.

Overall MWR at Carlisle Barracks does a great job with the funds they have available. The only thing in DESPERATE need of improvement is the food at the club. We have stopped eating there because of the poor quality; we just eat before the event we're attending. This is a major contention with many people here and they're losing money due to it. We've always enjoyed going to the club to hang out with friends, especially at the end of the week, but the incentive just isn't there due to the food.

Some of the MWR activities on post do a good job and I am glad to have many of these services available, especially the ones my children can and do use, i.e. Youth Services, Bowling Center, Gym, Theater, etc. However, I think overall the DCA does a poor job of publicizing what is going on. The ACS might as well not exist. I have no idea what they offer. Not having a lending closet here is a real detriment. I know of several families whose HHG were severely delayed in arriving who had no resource for loan items. The club here is poor. Either improve it or get rid of it. If you are going to do something, do it right or don't do it at all.
